

## STUDYING AT LSHTM: BLENDED LEARNING STUDY

Please note that due to the ongoing Covid-19 pandemic students attending on-campus modules will have to comply with [UK Government advice about entering the UK](#). It is strongly recommended that students are fully vaccinated before they start studies in London. Due to the uncertainty about how Covid-19 will affect life in the UK in 2022, on-campus module teaching may include a mix of face-to-face and online learning, or may switch solely to online learning.

The London School of Hygiene & Tropical Medicine is offering the opportunity for students registered on the distance learning MSc or PG Diploma Public Health programme to study LSHTM modules at the School in London **in place of DL elective modules**. On-campus LSHTM modules run for 5 weeks for 2.5 days per week for each module, and take place from January to May. (*The term 1 modules are foundation level modules which are unavailable to DL students.*) A maximum of two on-campus modules only may be chosen.

Blended learning offers DL students a number of benefits, such as extending the range of the MSc, a concentrated period of study, and the opportunity to meet other students and tutors in person and engage in face-to-face discussion-based learning. There is, however, a lot to consider before making this choice, including costs which are detailed below. Also, **it is important that you do not underestimate the time commitment required for study at LSHTM**: on campus module study is highly intensive throughout the 5-week teaching period, particularly if you choose to study two modules. You may not be able to study your DL modules during the time you are based in London and you should make sure that you plan for this in your study schedule for the year - this is particularly important if you choose to study a module which runs in April and May (the E teaching block).

This document is designed to help you to decide whether blended learning is an appropriate option for you.

### **Eligibility and restrictions**

- **To be able to apply to attend one of these modules, you must already be studying or be starting study of elective modules in 2021-22.**
  - If you are registered for the DL MSc PH programme you must ensure that by the end of your programme you have completed a **minimum of four PHM2 modules**, which must include the compulsory PHM2 module for the subject stream you are following (if you are doing the project option then a minimum of one PHM2 module must be chosen). If you are registered for the DL PG Diploma PH programme, **at least two PHM2 modules** must be chosen to complete the programme. **On-campus modules which are equivalent to PHM2 modules are noted in the tables overleaf.**
  - You cannot register for both a DL module and its on-campus equivalent module below.
  - Some on-campus modules may impose a restriction on student numbers; if such a restriction is applied, on-campus MSc students will be given priority over distance learning student module applications.
  - Some modules may require you to have background knowledge in the relevant subject. **You must check the restrictions and prerequisites which apply to many modules, prior to applying for a particular module** and you may be asked to provide evidence in order to satisfy the Module Organiser that you have sufficient knowledge to benefit fully from the module. (*Any*
-

*prerequisites given below were correct at the time of production of this document; students should check updated module specifications from the links given below.)*

## **The modules**

Full details of the content, learning objectives and assessment method of School modules can be found [here](#) (please note that this information is likely to be updated later in September, so please do check later in the month for the most up to date version). Summary details are shown below. A maximum of two on-campus modules may be chosen from:

### **Monday 10 January – Friday 11 February 2022**

#### **C1 module options: from Monday 09.00 to Wednesday 12.30**

Designing disease control programmes (3457)

Economic evaluation (1501)

*This module is equivalent to DL module PHM204. Students who have previously registered for, or completed, PHM204 cannot select this module.*

Health care evaluation (1400)

*This module is equivalent to DL module PHM207. Students who have previously registered for, or completed, PHM207 cannot select this module.*

Health promotion approaches & methods (1807)

*This module is equivalent to DL module PHM213. Students who have previously registered for, or completed, PHM213 cannot select this module.*

Malaria: from science to policy and practice (3195)

*Students who have previously registered for, or completed, DL module IDM503 cannot select this module.*

Research design & analysis (2423)

*Students who have previously registered for, or completed, DL module IDM601/RD1 cannot select this module.*

Sociological approaches to health (1803)

*This module can be considered in place of a PHM2 module.*

Study design: writing a study proposal (2400)

*Students who have previously registered for, or completed, DL module EPM201 cannot select this module.*

#### **C2 module options: from Wednesday 14.00 to Friday 17.00**

Conflict and health (1402)

*This module is equivalent to DL module PHM214. Students who have previously registered for, or completed, PHM214 cannot select this module.*

Design & analysis of epidemiological studies (2417)

*Students who have previously registered for, or completed, DL module CTM207 cannot select this module.*

Drugs, alcohol and tobacco (1457)

*This module can be considered in place of a PHM2 module.*

Family planning programmes (2401)

*This module can be considered in place of a PHM2 module.*

Health systems (1808)

*This module can be considered in place of a PHM2 module.*

History and health (1401)

*Students who have previously registered for, or completed, DL module PHM215 cannot select this module.*

Population, poverty and environment (2436)

Qualitative methodologies (1700)

*This module can be considered in place of a PHM2 module.*

Statistical methods in epidemiology (2402)

*Students who have previously registered for, or completed, DL module EPM202 cannot select this module.*

### **Monday 21 February – Friday 25 March 2022**

#### **D1 module options: from Monday 09.00 to Wednesday 12.30**

Applied communicable disease control (1454)

*This module is equivalent to DL modules PHM202/PHM218. Students who have previously registered for, or completed, PHM202, or who have previously registered for, completed, or wish to register for DL module PHM218 cannot select this module.*

Current issues in safe motherhood & perinatal health (2459)

*This module can be considered in place of a PHM2 module.*

#### Economic analysis for health policy (1504)

*This module is equivalent to DL module PHM203. Students who have previously registered for, or completed, PHM203 cannot select this module.*

#### Epidemiology of non-communicable diseases (2407)

*Students who have previously registered for, or completed, DL modules EPM303/EPM307 cannot select this module.*

#### Evaluation of public health interventions (1127)

*Students who have previously registered for, or completed, DL module PHM219 cannot select this module.*

#### Medical anthropology in public health (1802)

*This module is equivalent to DL module PHM211. Students who have previously registered for, or completed, PHM211 cannot select this module.*

#### Modelling and the dynamics of infectious diseases (2464)

*Students who have previously registered for, or completed, DL module EPM302 cannot select this module.*

#### Organisational management (1403)

*This module is equivalent to DL module PHM212. Students who have previously registered for, or completed, PHM212 cannot select this module.*

#### Social epidemiology (2472)

#### Water, sanitation and hygiene, and health (3434)

### **D2 module options: from Wednesday 14.00 to Friday 17.00**

#### Design and evaluation of mental health programmes (2342)

#### Environmental epidemiology (1301)

*This module is equivalent to DL module PHM205. Students who have previously registered for, or completed, PHM205 cannot select this module.*

#### Epidemiology of infectious diseases (2437)

*Students who have previously registered for, completed or wish to study DL modules EPM301 or PHM218 cannot select this module.*

#### Ethics, public health and human rights (3189)

*This module can be considered in place of a PHM2 module.*

#### Globalisation and health (1503)

*This module is equivalent to DL module PHM209. Students who have previously registered for, or completed, PHM209 cannot select this module.*

#### Health decision science (1606)

*This module is equivalent to DL module PHM201.*

*Students who have previously registered for, or completed, PHM201 cannot select this module.*

#### Nutrition related chronic disease (2442)

*This module can be considered in place of a PHM2 module.*

#### Reviewing the literature (1701)

*This module can be considered in place of a PHM2 module.*

#### Sexual health (1804)

*This module is equivalent to DL module PHM216. Students who have previously registered for, or completed, PHM216 cannot select this module.*

### **Wednesday 27 April – Friday 27 May 2022\***

### **E module options: from Wednesday 14.00 to Friday 17.00\***

#### Advanced statistical methods in epidemiology (2412)

*Students must have already successfully completed module EPM202 prior to studying this module; those who have previously registered for, or completed, DL module EPM304 cannot select this module.*

#### Environmental health policy (1300)

*This module is equivalent to DL module PHM206. Students who have previously registered for, or completed, PHM206 cannot select this module.*

*\* Please note that the days on which the E teaching slot modules run may be subject to change.*

### **Method of assessment**

Assessment methods for the on-campus modules vary and full details are given in the [module specifications](#). The on-campus modules may be assessed through coursework or a short examination, which will be carried by the end of the 5-week teaching period. (*You must complete the required assessment by the specified deadline of the module you are attending.*) The assessment you undertake on an on-campus module via the blended learning scheme will be credited towards your overall distance learning MSc degree. The assessment of up to **two** modules only can be credited in this way. Where a student has registered for an on-campus module that has an equivalent DL

module, the student must complete only the on-campus assessment and must not enter to be examined in the DL module assignment/unseen written examination.

#### IMPORTANT NOTES:

- *On-campus module assessments must be submitted by that module's specified deadline (usually immediately after the end of the 5-week module period); the DL assessment deadlines do not apply to on-campus modules.*
- *If you fail the on-campus module assessment with a grade point of less than 2.00, you may have to register and pay for, an additional distance learning elective module (see the [Academic Manual](#) page 42 onwards for information regarding compensation of grades) – not all on-campus module assessments undertaken as part of blended learning study may be re-sat.*

### Studying at the School

- **Immigration/Visas:** Non-UK nationals who would like to attend on-campus modules at the School may require a student visa to allow them to study in the UK. Further guidance can be found on the [UK Government website](#). Please note that we cannot register students for any on-campus modules unless they hold the correct immigration permission.
- If your DL fees are paid by a sponsor, you may need to check that they approve you studying module(s) at the School rather than by distance learning.
- **Accommodation:** There are many options for accommodation in London. Please see our [webpage](#) for information on some of these. Please note it is your responsibility to pay for and organise accommodation for the period of your stay in the UK.

### Cost

Distance learning students who wish to study individual modules at LSHTM will be required to pay a fee for the LSHTM module(s). This fee is in addition to your DL programme fee. The module fee will vary depending on whether you have already paid for your distance learning MSc by one initial payment to the University of London or you are paying individually for distance learning modules on an annual basis. The cost will be £970 per module if you have paid for your DL programme by one initial payment at the point of initial programme registration - or £1,870 per module if you have paid/are paying for your DL modules in annual instalments. **Do not send any payment at this stage** - confirmation of the cost of your LSHTM module(s) and how to pay will be included in your offer of admission that will be sent to you if your application for blended learning study is successful.

#### IMPORTANT NOTE:

- *If you are registering through the University of London for the distance learning modules you wish to study next year, please do NOT register or include any payment for LSHTM on-campus modules you are choosing to study by blended learning. Transfer of module payments from the University of London to the LSHTM cannot be made.*

### How to apply

**Applications for blended learning (intensive on-campus modules) can only be made direct to the LSHTM.** We will notify you via a message on the DL General Zone Noticeboard when applications for blended learning are open. This is likely to be in early November. **Please do not submit applications until we inform you the application process is open.**

Your application for blended learning study will then be considered by the relevant Module Organiser. LSHTM Registry will contact you to confirm your place on the module. If you have been accepted on the module you will then receive an official offer letter and must then register to take up the place by sending your payment to the School. **If your application is unsuccessful and you need to register for a distance learning module instead you must do this through the University of London Student Portal.**

---

*Please note: on rare occasions the School may cancel modules two weeks before the start date if numbers are insufficient to run the module. In such cases, the School will refund the module fee. The School cannot accept responsibility for accommodation, travel or other losses incurred as a result of the module being cancelled.*

## **Queries**

If you have any questions about the information given here and what your options for study might be, email [phsupport@lshrm.ac.uk](mailto:phsupport@lshrm.ac.uk) putting "blended learning study enquiry" in the subject header.
