

1. Overview

Academic Year (student cohorts covered by specification)	2019-20			
Programme Title	Nutrition for Global Health			
Programme Director	Dr Marko Kerac			
Awarding Body	University of London			
Teaching Institution	London School of Hygiene & Tropical Medicine			
Faculty	Epidemiology and Public Health			
Length of Programme (months)	MSc – Full time = 12 months, Part time = 24 months Exit awards: PGDip – Full time = 8 months, Part time = 16 months			
Entry Routes	MSc			
Exit Routes	MSc / PGDip			
Award Titles	MSc Nutrition for Global Health (180 credits) Exit awards: PGDip Nutrition for Global Health (120 credits)			
Accreditation by Professional Statutory and Regulatory Body	UK Association for Nutrition, www.associationfornutrition.org (Accreditation number: AC226)			
Relevant PGT QAA Benchmark Statement and/or other external/internal reference points	No applicable Subject Benchmark Statement available at Level 7 See accreditation with AfN above			
Level of programme within the Framework for Higher Education Qualifications (FHEQ)	Masters (MSc) Level 7			
Total Credits	CATS:	180	ECTS:	90
HECoS	tbc			
Mode of Delivery	The main part of the programme is taught 'face-to-face' at LSHTM in London.			
Mode and Period of Study	Full time (12 months) or part time/split time (max 24 months)			
Cohort Entry Points	Annually in September			
Language of Study	English			
Re-sit Policy	https://www.lshtm.ac.uk/sites/default/files/Resits_Policy_Policy_Procedure.pdf			

Extenuating Circumstances Policy	https://www.lshtm.ac.uk/edu/taughtcourses/exams_assmt_staff/extenuating_circumstances_policy.pdf
Programme Description	The programme provides training in public health nutrition in a global setting. An integrated programme covers epidemiological, dietary, public health, social and biological aspects of nutritional science. Specialist topics include: maternal and child nutrition; nutrition in emergencies; nutrition programme planning, evaluation and monitoring; nutrition-related chronic disease. The main programme focus is on nutritional problems in low and middle-income countries – although skills and learning outcomes are widely applicable to populations globally.
Date of Introduction of Programme (month/year)	The Department of Human Nutrition at LSHTM was founded in 1945 and postgraduate teaching initially began as a Diploma in Human Nutrition. This developed into a full MSc in the 1970s. Over time, the MSc in “Human Nutrition” broadened and evolved into an MSc in “Public Health Nutrition”. Reflecting increasing global focus, the MSc was renamed “Nutrition for Global Health” in Sept 2012.
Date of production / revision of this programme specification (month/year)	June 2018

2. Programme Aims & Learning Outcomes

Educational aims of the programme
<p>The aim of the MSc – consistent with LSHTM’s mission to improve health worldwide – is to provide comprehensive training in nutrition for global health. Students can specialise in a number of topics and in a range of contexts. An integrated programme covers epidemiological, dietary, public health, social and biological aspects of nutritional science. Specialist topics include maternal and child nutrition, nutrition in emergencies, nutrition programme planning, evaluation and monitoring, nutrition-related chronic disease.</p> <p>The main programme focus is on nutritional problems in low and middle-income countries (LMIC) although skills and learning outcomes are widely applicable to all populations globally.</p>

Programme Learning Outcomes
<p>By the end of the programme, students will be expected to achieve the following learning outcomes – drawing on material taught across different elements and assessed in a variety of ways.</p> <ul style="list-style-type: none"> i) demonstrate an advanced knowledge of public health nutrition at biological, social & policy levels. ii) assess critically, select and apply a range of appropriate research skills and techniques, including: anthropometry, dietary analysis, statistics, epidemiology, qualitative methods, research, computing & information retrieval. iii) interpret and synthesise different types of data used to analyse and assess nutritional problems at population and population sub-group levels iv) evaluate critically the findings of scientific studies on public health nutrition. v) disseminate and present research findings in a range of formats and contexts vi) identify and formulate appropriate responses and intervention strategies to address nutritional issues, taking into account the public health and social policy contexts vii) apply knowledge of effective teamwork and communication skills to solve problems and achieve goals

Teaching and Learning Strategy

The programme is taught through a variety of teaching methods including: lectures, small group seminars, practical, and group-work with peers.

All elements of the programme have specific learning objectives, with content designed to help students achieve these outcomes. Students are expected to learn through both directed and self-directed study.

Assessment Strategy

The programme is assessed through individual module assessments (which may include essays, other written coursework, short written exams, practical exams, group-work, presentations or other methods), formal summer exams, and a project report. Such tasks are designed to assess, via the most appropriate method, whether learning objectives have been met.

3. Programme Structure and features, modules, credit assignment and award requirements:

Full-time Masters	Term 1	Term 2	Term 3	Total Credits
Compulsory Modules	3	2		90
Recommended Modules		2	*	30
Projects			1	45

***Note:** additionally, one 15 credit module to be selected from peripheral options

Any optional (i.e. recommended non-compulsory) modules listed are indicative and may change from year to year for reasons including staff availability, student demand, and enhancements to programmes as part of ongoing review. <https://www.lshtm.ac.uk/study/courses/changes-courses>

Term	Slot	Module Code	Module Title	Module Type (compulsory or recommended)	Credits (CATS)	Contact hours
1	AB1	2055	Fundamental Public Health Nutrition	Compulsory	35	110
1	AB1	2001	Basic Epidemiology	Compulsory	10	30
1	AB1	2021	Statistics for EPH	Compulsory	15	70
2	C1	2440	Maternal & Child Nutrition	Compulsory	15	56
2	C2	2417	Design & Analysis of Epidemiological Studies	Recommended	15	37
2	D2	2442	Nutrition Related Chronic Diseases	Compulsory	15	40
2	D1	2451	Nutrition in Emergencies	Recommended	15	60

4: Entry Requirements

Criteria for admission

General entrance requirements Applicants must normally satisfy LSHTM's general entrance requirements and additional programme specific entrance requirements to be considered for admission. Applications must be submitted in accordance with the procedures and deadlines given in the web-based or printed prospectus.

In order to be admitted to this postgraduate taught degree programme of the London School of Hygiene & Tropical Medicine, an applicant must hold at least an *upper second-class* Honours degree of a UK university, or an overseas qualification of an equivalent standard, or a registerable qualification in medicine, dentistry or veterinary studies appropriate to the programme.

Applications with an appropriate technical or other equivalent qualification and experience from overseas, are also welcomed.

Applicants who have worked in relevant nutrition, health or other global-nutrition related activities will be given preference.

We also welcome applicants from a variety of professional backgrounds, but for those with limited prior nutrition / science / health training, it is essential to have done appropriate pre-course reading and preparation – please see the MSc reading list on: <https://www.lshtm.ac.uk/study/new-students/starting-your-course-london/nutrition-global-health>

For further information, please see

English language entry requirements

Band B

It is essential that all students have a good command of the English language to benefit from their studies at the School.

As part of the application process, applicants are required to demonstrate how they meet the School's minimum English language requirements. This is particularly important for applicants requiring a Tier 4 Student visa, as the UK Home Office dictates that every student from outside the UK and European Union (EU) must show evidence of a minimum level of English language ability (called CEFR1 B2 level), in order for a Tier 4 Student visa to be issued for entry to the UK.

Additionally, the School asks applicants to have minimum English language proficiency levels that are necessary for our academic programmes. These levels are higher than the CEFR B2 minimum level and also apply to EU applicants, although these will not normally require a Tier 4 Student visa.

The academic English language requirements for each of the School's programmes are categorised into one of three profiles A, B or C. For information on these three profiles, please refer to the LSHTM English Language Requirement Policy: <https://www.lshtm.ac.uk/files/english-language-requirements.pdf>
