

1. Overview

Academic Year (student cohorts covered by specification)	2019/20			
Programme Title	Public Health for Development			
Programme Director	Daniel Chadramohan, Krystyna Makowiecka and Sandra Mounier-Jack			
Awarding Body	University of London			
Teaching Institution	London School of Hygiene & Tropical Medicine			
Faculty	Interfaculty			
Length of Programme (months)	MSc: full time - 12 months; part time - 24 months Exit award: PGDip: full time - 8 months; part time - 16 months			
Entry Routes	MSc			
Exit Routes	MSc/PGDip			
Award Titles	MSc in Public Health for Development (180 credits)			
Accreditation by Professional Statutory and Regulatory Body	No accreditation			
Relevant PGT QAA Benchmark Statement and/or other external/internal reference points	No relevant PGT QAA benchmark			
Level of programme within the Framework for Higher Education Qualifications (FHEQ)	Masters (MSc) Level 7			
Total Credits	CATS:	180	ECTS:	90
HECoS Code	tbc			
Mode of Delivery	The programme is taught principally face-to-face at LSHTM in London.			
Mode and Period of Study	Full time (12 months) or part time/split study (24 months)			
Cohort Entry Points	Annually in September			
Language of Study	English			
Re-sit Policy	https://www.lshtm.ac.uk/sites/default/files/Resits_Policy_Policy_Procedure.pdf			

Extenuating Circumstances Policy	https://www.lshtm.ac.uk/edu/taughtcourses/exams_assmt_staff/extenuating_circumstances_policy.pdf
Programme Description	<p>The course is structured to accommodate the needs of students who come from a range of professional backgrounds and who intend to develop different professional skills.</p> <p>In term 1 students study core public health research skills: epidemiology, statistics, health economics, social research and health policy. In term 2 we offer an extensive choice of modules and students are guided in their choice by their personal tutors to build a coherent package to suit their career needs.</p> <p>Public Health for Development students have at least two years' experience of working in public health, of public health teaching or of research in a low- or middle-income country. We see this experience as a rich resource and in term 1 a series of seminars is organised in which students learn from one another through presentations and themed discussions on their professional experience. They reflect critically on public health achievements in light of material they study on the course and of the development context.</p> <p>Towards the end of the teaching year, Public Health for Development students are encouraged to take the unifying module: Applying Public Health Principles in Developing Countries. They also write a research report which examines in depth a subject relating to public health in a low- or middle-income country, through the analysis of data, a literature review, a policy report or by writing a research proposal.</p> <p>Since the student body is a key resource on this course, we enhance group identity by organising two over-night stays away from London, one at the beginning and one at the end of the course.</p>
Date of Introduction of Programme (month/year)	<p>September 1978 (as MSc Community Health in Developing Countries)</p> <p>September 2016 (title changed to MSc Public Health for Development)</p>
Date of production / revision of this programme specification (month/year)	July 2018

2. Programme Aims & Learning Outcomes

Educational aims of the programme

The aim of the programme, consistent with LSHTM's mission to improve health worldwide, is to equip students with skills needed to appreciate and analyse public health problems in low-income countries, and to design and evaluate actions to improve public health. The course considers issues of health, development and the provision of health services from a multidisciplinary perspective. Public Health for Development students have substantial experience of planning or implementation of public health programmes, of teaching or public-health-related research in low-income countries. We complement formal teaching with peer-to-peer learning that builds on this professional experience.

Programme Learning Outcomes

By the end of the programme, students will be able to:

- demonstrate knowledge, understanding and skills in core public health disciplines including epidemiology, statistics, social science research, health economics and health policy;
- demonstrate knowledge and understanding of a range of current issues and topics related to public health in low- and middle-income settings;
- apply public health knowledge and skills to identify and assess public health problems in low- and middle-income countries;
- formulate appropriate public health strategies to control health problems and promote health in low- and middle-income countries;
- evaluate actions designed to improve public health in low- and middle-income countries;
- frame knowledge of public health within a development context.

Teaching and Learning Strategy

The programme is taught using a range of teaching methods including: lectures, small group seminars, practicals, and group-work with peers. All elements of the programme have specific learning objectives, with content designed to help students achieve these outcomes. Students are expected to learn through both directed and self-directed study.

In addition, on the MSc Public Health for Development programme, we build on the group's professional experience through peer-learning seminars in which students are asked to present and reflect on their public health experience in light of the material they are covering on the programme.

Assessment Strategy

The programme is assessed through individual module assessments (which may include essays, other written coursework, short written exams, practical exams, group-work, presentations or other methods), formal summer exams, and a project report. Such tasks are designed to assess, using the most appropriate method, whether learning objectives have been met.

3. Programme Structure and features, modules, credit assignment and award requirements:

Full-time Masters	Term 1	Term 2	Term 3	Total Credits
Compulsory Modules	5			60
Recommended Modules		4	1	75
Project			1	45

Any optional (i.e. recommended non-compulsory) modules listed are indicative and may change from year to year for reasons including staff availability, student demand, and enhancements to programmes as part of ongoing review. <https://www.lshtm.ac.uk/study/courses/changes-courses>

Term	Slot	Module Code	Module Title	Module Type (compulsory or recommended)	Credits (CATS)	Contact hours
1	AB1	1103	Introduction to Health Economics	Compulsory	10	30
1	AB1	1104	Principles of Social Research	Compulsory	10	26
1	AB1	1117	Health Policy, Process & Power	Compulsory	10	28
1	AB1	2007	Extended Epidemiology	Compulsory	15	55
1	AB1	2021	Statistics for EPH	Compulsory	15	70
2	C1	1400	Health Care Evaluation	Recommended	15	22
2	C1	1457	Alcohol, Tobacco and other Drugs	Recommended	15	35
2	C1	1501	Economic Evaluation	Recommended	15	33
2	C1	1803	Sociological Approaches to Health	Recommended	15	30
2	C1	1807	Health Promotion Approaches and Methods	Recommended	15	27
2	C1	2400	Study Design: Writing a Study Proposal	Recommended	15	20
2	C1	2423	Research Design & Analysis	Recommended	15	34
2	C1	2440	Maternal & Child Nutrition	Recommended	15	56
2	C1	3195	Epidemiology & Control of Malaria	Recommended	15	46
2	C1	3457	Designing Disease Control Programmes in Developing Countries	Recommended	15	25
2	C2	1401	History & Health	Recommended	15	30
2	C2	1402	Conflict and Health	Recommended	15	37
2	C2	1700	Qualitative Methodologies	Recommended	15	30
2	C2	1808	Health Systems	Recommended	15	32
2	C2	2401	Family Planning Programmes	Recommended	15	35

2	C2	2402	Statistical Methods in Epidemiology	Recommended	15	38.5
2	C2	2417	Design & Analysis of Epidemiological Studies	Recommended	15	37
2	C2	2436	Population, Poverty and Environment	Recommended	15	17
2	D1	1127	Evaluation of Public Health Interventions	Recommended	15	30
2	D1	1403	Organisational Management	Recommended	15	30
2	D1	1454	Applied Communicable Disease Control	Recommended	15	21
2	D1	1504	Economic Analysis for Health Policy	Recommended	15	45
2	D1	1802	Medical Anthropology and Public Health	Recommended	15	40
2	D1	2407	Epidemiology of Non-Communicable Diseases	Recommended	15	30
2	D1	2451	Nutrition in Emergencies	Recommended	15	60
2	D1	2459	Current Issues in Safe Motherhood & Perinatal Health	Recommended	15	40
2	D1	2472	Social Epidemiology	Recommended	15	40
2	D1	3135	Spatial Epidemiology in Public Health	Recommended	15	50
2	D1	3192	Control of Sexually Transmitted Infections	Recommended	15	30-35
2	D1	3434	Tropical Environmental Health	Recommended	15	68
2	D2	1301	Environmental Epidemiology	Recommended	15	30
2	D2	1503	Globalisation & Health	Recommended	15	36
2	D2	1701	Reviewing the Literature	Recommended	15	29
2	D2	1804	Sexual Health	Recommended	15	36
2	D2	2342	Design & Evaluation of Mental Health Programmes	Recommended	15	65
2	D2	2437	Epidemiology & Control of Communicable Diseases	Recommended	15	63
2	D2	3189	Ethics, Public Health & Human Rights	Recommended	15	30
2	D2	3461	Global Disability and Health	Recommended	15	42

3	E	3198	Applying Public Health Principles in Developing Countries	Recommended	15	44
---	---	------	---	-------------	----	----

4: Entry Requirements

Criteria for admission

General entrance requirements

Applicants must normally satisfy LSHTM's general entrance requirements and additional programme-specific entrance requirements to be considered for admission. Applications must be submitted in accordance with the procedures and deadlines given in the web-based or printed prospectus.

In order to be admitted to a postgraduate taught degree programme of the London School of Hygiene & Tropical Medicine, an applicant must:

- a) hold a first degree at Second Class Honours standard in a relevant discipline, a degree in medicine at the same standard, or another degree of equivalent awarded by an overseas institution recognised by UK Naric or Barrons.

OR

- b) hold a professional qualification appropriate to the programme of study to be followed obtained by written examinations and judged by the School to be equivalent to a Second Class Honours degree or above.

OR

- c) have relevant professional experience or training which is judged by the School to be equivalent to a Second Class Honours degree or above.

AND

- d) satisfy any additional requirements where prescribed for admission to a specific programme.

Additional information

Successful applicants for the MSc Public Health for Development are expected to have two years' professional experience in Public Health in a low or middle-income country.

Any prospective student who does not meet the above minimum entry requirement, but who has relevant professional experience, may still be eligible for admission. Qualifications and experience will be assessed from the application.

English language entry requirements

Band B

It is essential that all students have a good command of the English language to benefit from their studies at the School.

As part of the application process, applicants are required to demonstrate how they meet the School's minimum English language requirements. This is particularly important for applicants requiring a Tier 4 Student visa, as the UK Home Office dictates that every student from outside the UK and European Union (EU) must show evidence of a minimum level of English language ability (called CEFR1 B2 level), in order for a Tier 4 Student visa to be issued for entry to the UK.

Additionally, the School asks applicants to have minimum English language proficiency levels that are necessary for our academic programmes. These levels are higher than the CEFR B2 minimum level and also apply to EU applicants, although these will not normally require a Tier 4 Student visa.

The academic English language requirements for each of the School's programmes are categorised into one of three profiles A, B or C. For information on these three profiles, please refer to the LSHTM English Language Requirement Policy: <https://www.lshtm.ac.uk/files/english-language-requirements.pdf>
