Energy Efficiency Upgrades & Health

Share your lived experience in a workshop!

Homes are being retrofitted to improve energy efficiency through government schemes. For this workshop, we invite residents who have experience with the Energy Company Obligation (ECO) schemes any time since 2013. Upgrades help with energy bills and may also improve residents' health and wellbeing. In this research, we are looking at [how ECO may have affected residents' use of the NHS](#). We are interested in what went well and what might need to be improved. You can join if you:

- Live (or have lived) in a home that received energy efficiency measures through ECO
- Have experience of health challenges yourself or someone you care for

Event Details

• **St Pancras & Somers Town Living Centre**, 2 Ossulston St, London NW1 1DF [[Map](#)]

Date: 1 Oct 2026

Time: 10am-12noon

Wheelchair accessible venue

Refreshments provided

Shopping voucher £55

We will ask you about your experiences – good or bad – and impacts on health/wellbeing for yourself or people you care for. We will ask you to discuss the process from start to end. What could be improved and what advice would you give to others?

We offer up to £10 towards transport

Interested? Contact: Jakob Petersen, [07952031362](tel:07952031362), jakob.petersen2@lshtm.ac.uk
