| Mode of Study                                          | Directed self-study, through online materials via the Virtual Learning Environment |
| Language of Study                                       | English |
| Pre-Requisites                                         | None |
| Accreditation by Professional Statutory and Regulatory Body | None |
| Module Cap (Maximum number of students)                 | None |
| Target Audience                                        | This module is compulsory for the PGCert/PGDip/MSc Global Health Policy by Distance Learning, and can also be taken as a standalone module. The module is aimed at those with an interest in the political dimension of global health governance including public health actors, NGO employees and those employed in health Ministries (or seeking employment in these areas). |
| Module Description                                     | This module provides an introduction to essential concepts from the fields of political science and international relations to help students understand, interpret and critique the key actors and process within global health policy making. Topics covered in the module include global governance, power, institutions, the state, civil society, public-private partnerships, expert networks, political identity and health |
diplomacy. In addition, the module examines cross-cutting themes such as financing, human rights and development.

**Duration**
Moodle is open to access from 1st October each year. Students then plan their own studies between October and June. Examinations are held in the first three weeks of June.

**Last Revised (e.g. year changes approved)**
March 2020

---

**Programme(s)**
This module is linked to the following programme(s) | **Status**
--- | ---
PGCert/PGDip/MSc Global Health Policy (Distance Learning - University of London Worldwide) | Compulsory
PGDip/MSc Demography and Health (Distance Learning – University of London Worldwide) | Elective

---

**Module Aim and Intended Learning Outcomes**

**Overall aim of the module**
The overall module aim is to:
- improve students’ understanding of the political dynamics shaping global health policy.

**Module Intended Learning Outcomes**
Upon successful completion of the module a student will be able to:
1. describe the main global governance arrangements and institutions in the field of health policy and critique their effectiveness;
2. identify key actors and interests involved in global health policy making and critically assess their impact on global health policy;
3. interpret key political dynamics shaping global health governance;
4. apply key concepts from the fields of political science and international relations as discussed in the module to analyse debates in global health policy.
Indicative Syllabus

Teaching and Learning Strategy

Learning is self-directed against a detailed set of learning objectives using the materials provided. Module tutors provide asynchronous support for students by replying to students’ questions in open online discussion forums and facilitating discussion. Students are also strongly encouraged to participate in live webinars available on Moodle to obtain tutor support, and to make use of LSHTM online library resources. In addition, written feedback is provided on submitted formative assignments.
Assessment

Assessment Strategy
Formal assessment of this module consists of a two-hour unseen written examination which tests students against the module Intended Learning Outcomes and accounts for 100% of the student's final grade. If students fail the module overall, they are allowed one further attempt at the examination. Formative assessment via the FA is used as preparation for the type of assessment task set in the exam. The submission deadline for the FA is 31 March. All Formatives Assignment must be submitted via the Assignment Management System.

Summative Assessment

Unseen written examinations for DL modules are held once a year, in June (including resits). Examinations are normally taken in a student's country of residence, in one of over 650 examination centres worldwide (arranged mainly through Ministries of Education or the British Council). A list of examination centres can be found at: https://london.ac.uk/current-students/examinations/examination-centres

A local fee will be payable direct to the examination centre. This fee is in addition to the programme/module fee and is set by, and paid directly to, the individual examination centres. The level of local examination centre fees varies across the world and neither the University of London nor the LSHTM have any control over the fee amount.

Resitting assessment
Resits will accord with the LSHTM’s Resits Policy.
Resources

**Indicative reading list**
This is a sample of readings from across the different sessions in the module:

**Other resources**

A full list of essential, recommended and further reading is given for each session.

**Teaching for Disabilities and Learning Differences**

The LSHTM Moodle has been made accessible to the widest possible audience, using a VLE that allows for up to 300% zoom, permits navigation via keyboard and use of speech recognition software, and that allows listening through a screen reader.

For students with special needs, reasonable adjustments and support can be arranged – details and how to request support can be found on the University of London Worldwide website at https://london.ac.uk/applications/how-it-works/inclusive-practice-access-arrangements.
