DEFINITIONS

Equality
“Equality is ensuring individuals or groups of individuals are not treated differently or less favourably, on the basis of their specific protected characteristic” (The University of Edinburgh, 2019).

Diversity
“Diversity is the presence of difference within a given setting” (General Assembly, 2019). LSHTM recognises that diversity encompasses and goes beyond protected characteristics as set out in the Equality Act (2010) and should include everything that makes us unique, from our backgrounds and experiences to our personalities and ways of thinking. We also recognise the importance of the intersectionality of different elements of our identities that may impact on a person’s sense of belonging.

Inclusion
“Inclusion is about creating an environment that has the necessary structures to ensure that every individual, regardless of their characteristics and background, has what they need to thrive personally and professionally.”
