

BHF PROTECT-TAVI

NEW SITES

Welcome to the team at **St Bartholomew's Hospital** for randomising their 1st participant!

SITE SET-UP

The BHF PROTECT-TAVI team are here to help with site set-up. Even if you're not ready to begin recruitment just yet, we can start the process to help get study approvals.

SCREENING LOGS

Please remember to send in your screening logs at the beginning of each month.

PRIVATE HOSPITALS

Get in touch with the BHF PROTECT-TAVI team if you're doing NHS TAVI work in private hospitals. We already have approval from Nuffield Health to recruit these patients into the trial and are working to get other private hospitals on board.

FEBRUARY RECRUITMENT LEADERBOARD

John Radcliffe Hospital (25)

Leeds General Infirmary (21)

Royal Sussex County Hospital (17)

SITES OPEN TO RECRUITMENT

So far we have 9 sites open to recruitment!
As you can see on the map, the locations are varied with sites open in:

- London (Barts, King's College)
- Oxford
- Leeds
- Edinburgh
- Cardiff
- Swansea
- Wolverhampton
- Brighton

If you are interested in the trial but your site is not yet listed above get in touch with us and we will work with you to get you on the map as soon as possible

JANUARY CONVERSION RATES

These are the incredible conversion rates for **January 2021**, at the very peak of the second wave. A huge thank you to the teams who kept recruitment going through this challenging time.

Site	Conversion Rate (%)
John Radcliffe Hospital, Oxford	80
Royal Sussex County Hospital, Brighton	79
Morrison Hospital, Swansea	60
New Cross Hospital, Wolverhampton	38
Royal Infirmary of Edinburgh	13
Leeds General Infirmary	Awaiting screening data
University Hospital of Wales, Cardiff	Awaiting screening data
King's College Hospital	N/A
St Bartholomew's Hospital	N/A

Table 1: Shows the percentage of patients scheduled to undergo a TAVI that were enrolled into BHF PROTECT-TAVI

BHF PROTECT-TAVI is an **all-comer trial**. When the situation eases in the NHS we anticipate that both the numbers of participants enrolled, and the conversion rate, will improve.
