

TIGHT K E-BULLETIN

February 2022

The Tight K Trial is in full swing and we are looking for more sites to join the study!

We currently have 11 open sites and have recruited 320 participants - see February recruitment below.

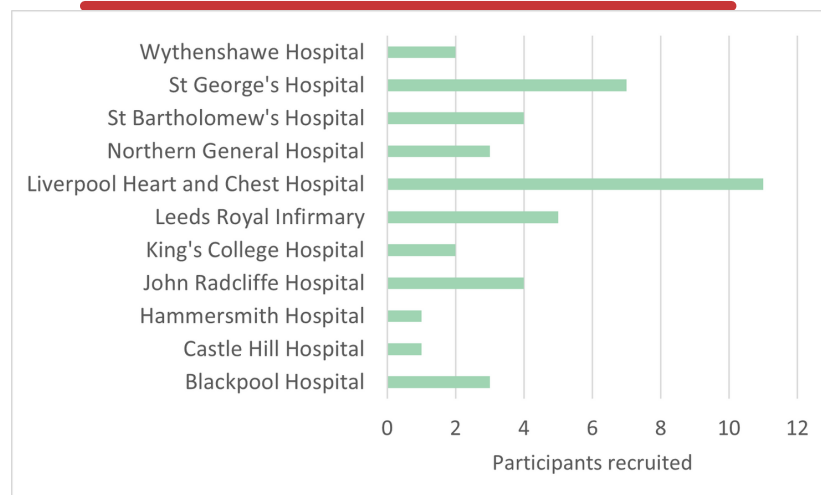

"Tight K is the **best** trial to work on and participants are really keen to take part.

It's a simple study to explain to clinical colleagues making it easy to get everyone on board supporting the trial.

One of the most challenging aspects is that procedures are often being rescheduled, but in the end team spirit and positivity win out!"

*Pam Kabungo and Nikki Yun, Research nurses on Tight K
St George's Hospital, London*

FEBRUARY RECRUITMENT - 43 PARTICIPANTS

Distribution of participants recruited across sites in February 2022
