Module Aim and Intended Learning Outcomes

Overall aim of the module

The overall module aim is to:

• introduce students to key issues in Global Mental Health and to provide a critical understanding of this emerging field.

Module Intended Learning Outcomes

Upon successful completion of the module a student will be able to:

- 1. critically assess the global burden of mental, neurological and substance use disorders in terms of disability, mortality and economic losses;
- 2. explain the relevance of mental health to key issues in global health and development;
- 3. compare and contrast different approaches to mental health promotion, prevention and treatment;
- 4. critically evaluate local and global priorities for mental health research, policy and services.

Indicative Syllabus

Session Content

The module is expected to cover the following topics:

- Emergence of Global Mental Health;
- Priority Mental, Neurological and Substance Use Disorders;
- Culture and Critiques of Global Mental Health;
- Resources for Mental Health;
- Policy and Legislative Frameworks for Mental Health;

Session Content

- Social and Biological Risk Factors for Mental, Neurological and Substance Use Disorders;
- Mental Health and Humanitarian Crises;
- Human Rights and Stigma;
- Prevention of Mental, Neurological and Substance Use Disorders, and Promotion of Psychological Wellbeing;
- Suicide;
- Strategies to Scale Up Services;
- Priorities in Global Mental Health.

Teaching and Learning

Notional Learning Hours

Type of Learning Time	Number of Hours	Hours Expressed as Percentage (%)	
Directed self-study	72	48	
Self-directed learning	28	19	
Assessment, review and revision	50	33	
Total	150	100	

Teaching and Learning Strategy

Learning is self-directed against a detailed set of learning objectives using the materials provided. Module tutors provide asynchronous support for students by replying to students' questions in open online discussion forums and facilitating discussion. Students are also strongly encouraged to participate in live webinars available on Moodle to obtain tutor support, and to make use of LSHTM online library resources. In addition, written feedback is provided on submitted formative assignments.

Assessment

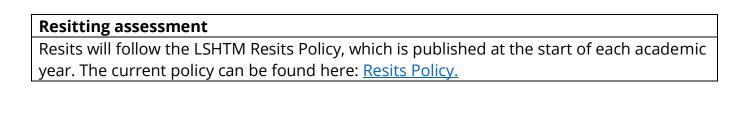

Assessment Strategy

Formal assessment of this module includes: 1) an annotated bibliography on a topic of importance to mental health policy in a specific country or region (30%); and, 2) a policy report on the same topic and country or region (70%). If students fail the module overall, they are allowed one further attempt at the failed element (assessment).

Summative Assessment

Assessment Type	Assessment Length (i.e. Word Count, Length of presentation in minutes)	Weighting (%)	Intended Module Learning Outcomes Tested
Assessed Assignment 1 – Annotated Bibliography	Maximum of 10 citations and maximum 1,500 words for the assignment.	30	1, 4
Assessed Assignment 2 – Policy Report	2,500 words	70	2, 3

Assignments for this module can be submitted only once annually. The annotated bibliography must be submitted no later than 14 February and the policy report must be submitted no later than 12 May. All assignments must be submitted via the online Assignment Management System.

A full list of essential, recommended and further reading is given for each session.

Teaching for Disabilities and Learning Differences

The LSHTM Moodle has been made accessible to the widest possible audience, using a VLE that allows for up to 300% zoom, permits navigation via keyboard and use of speech recognition software, and that allows listening through a screen reader.

For students with special needs, reasonable adjustments and support can be arranged – details and how to request support can be found on the <u>Inclusive Practice/Access</u>

<u>Arrangements page</u> of the University of London Worldwide website.
