

PROGRAMME SPECIFICATION

1. Overview

Academic Year (student cohorts covered by specification	2024-25			
Programme Title	Doctorate of Public Health			
Programme Director	Nicki Thorogood and Joanna Schellenberg			
Awarding Body	University of London			
Teaching Institution	London School of Hygiene & Tropical Medicine			
Faculty	Element 1 is based in the Faculty of Public Health & Policy. DrPH students may be registered in any faculty.			
Length of Programme (years)	DrPH Full-time: min 3 years, max 4 years (elements 1, 2 & 3) DrPH Part-time: min 4 years, max 8 years (elements 1, 2 & 3)			
Entry Routes	DrPH			
Exit Routes	DrPH, PGDip or PGCert: each student will retain only the highest level award achieved.			
Award Titles	Doctor of Public Health (DrPH)			
	PGCert in Public Health Policy, Leadership and Management (60 credits)			
	PGDip in Public Health Policy, Leadership and Management (120 credits)			
Accreditation by Professional Statutory and Regulatory Body	N/A			
Relevant PGT QAA Benchmark Statement and/or other external/internal reference points	No relevant QAA benchmark for this Programme			

F	T					
Level of programme	Level 8 (Doctoral degree)					
within the Framework for	Level 7 (Masters level)					
Higher Education	For further information about Level 7 and 8 qualifications in					
Qualifications	England, please see https://www.qaa.ac.uk/docs/qaa/quality					
(FHEQ)	code/qualifications-frameworks.pdf					
Total Credits	CATS: 180					
	ECTS: 90					
Mode of Delivery	The DrPH programme includes two taught components in					
	the first term. To ensure flexibility for student engagement,					
	we plan to continue with online delivery of these modules					
Made and Dovied of	during the 2024/25 academic year.					
Mode and Period of Study	Full-time Registration: minimum 3 years, maximum 4 years					
Study	Part-time Registration: minimum 4 years, maximum 8 years					
Cohort Entry Points	Annually in September					
	English					
Language of Study	English

Public Health Policy & Practice, and Understanding Leadership, Management & Organisation.
Assessment of each is based on graded written assignments.

<u>Element 2</u>, Research Study I, organisational and/or policy analysis (OPA)

This gives the opportunity to observe closely the workings of a public health organisation or a policy community, and from this develop a better understanding of how to design and develop effective public health organisations and/or shape public health policy. The OPA usually involves 3–6 months' fieldwork observing and analysing operations at a host organisation or using the host organisation as a base from which to explore the dynamics of a number of organisations involved in shaping policy on a particular aspect of public health. It is assessed on the basis of a written report not exceeding 15,000 words. The OPA is assessed internally to ensure that it is of a sufficiently high standard and will be submitted to the Board of Examiners for the ratification of the outcome.

Element 3, Research Study II: a piece of research on any subject related to public health (thesis)

The purpose is to learn about the role of research in public health practice by undertaking a piece of high-quality public health-relevant research. Before commencing the research there is a DrPH Review, with a written report (7,500 words), a seminar and an assessment panel. This provides feedback to improve the research, and identifies any students who may choose to, or be better suited to, exit with a Postgraduate Certificate (Taught Modules) or Postgraduate Diploma (Taught Modules plus RSI).

The thesis topic can be from any discipline or subject area and the research must be original and make a distinct contribution to the knowledge of your chosen subject. You can choose to relate it to your OPA or not. The thesis has a 60,000 word limit. The research thesis is formally examined at an oral examination (*viva*).

Elements 2 and 3, Research Studies I and II, are undertaken after the submission of the assessed assignments for Element 1. They cannot be formally assessed until Element 1 has been successfully passed. Further Element 3/Research

	Study II cannot be formally assessed until Elements 1 and 2 have been successfully passed.

2. Programme Aims & Learning Outcomes

Educational aims of the programme

The programme aims are to equip graduates with the knowledge and experience to deal with the particular challenges of understanding and using scientific knowledge in order to achieve public health gains, as well as the analytical and practical skills required by managers and leaders in public health. The rigour and volume of the total programme of work is at doctoral level, and appropriate to the personal development of public health professionals.

Programme Learning Outcomes

DrPH Taught modules, Research Studies I and II

The award of DrPH (Level 8): is based on evidence of the student's demonstration of facility in four distinct areas:

- 1. The systematic acquisition and understanding of a substantial body of knowledge in Public Health Policy, Leadership and Management;
- 2. The ability to conceptualise, design and implement projects for the generation of new knowledge, applications or understanding at the forefront of the discipline, and to adjust the project design in the light of unforeseen problems;
- 3. A detailed understanding of applicable techniques for research and advanced academic enquiry; and
- 4. The creation and interpretation of new knowledge, through original research or other advanced scholarship.

PGDip Taught modules (60 credits) and Research Study I (60 credits)

The award of PGDip in Public Health Policy, Leadership and Management (Level 7): is based on evidence of the student's demonstration of facility in:

The systematic acquisition and understanding of a substantial body of knowledge in Public Health Policy, Leadership and Management and the

satisfactory completion of a policy and/or organisationally focused piece of independent, applied research which will be summatively assessed as described above. (RSI).

PGCert *Taught modules (60 credits)*

The award of PGCert in Public Health Policy, Leadership and Management (Level 7): is based on evidence of the student's demonstration of facility in:

The systematic acquisition and understanding of a substantial body of knowledge in Public Health Policy, Leadership and Management.

3. Programme Structure and features, modules, credit assignment and award requirements:

Element	Year of Study (Full Time)	Module Code	Module Title	Module Type (compulsory or recommended)	Credits (CATS)
1	Year 1	5001	Understanding Leadership, Management & Organisation	Compulsory	30
		5002	Evidence Based Public Health Policy & Practice	Compulsory	30
2	Year 1 and 2	5003	Public Health Research Study I (RSI): Organisation and/or Policy Analysis	N/A	60
3	Year 3-4	N/A	Public Health Research Study II (RSII): Individually agreed study	N/A	N/A
4		N/A	Individually negotiated researcher development/ training activities and complementary studies	N/A	N/A

4. Entry Requirements

Criteria for admission

Applicants for DrPH study should have at least one of the following:

- an upper second-class Honours degree of a UK university, or an overseas qualification of an equivalent standard, in a subject appropriate to that of the course of study to be followed; or
- a registrable qualification appropriate to the course of study to be followed, in medicine, dentistry or veterinary studies; or
- a Masters degree in a subject appropriate to the course of study to be followed; or
- a professional qualification obtained by written examination and approved by the University of London as an appropriate entrance qualification for the degree in question.
- In addition, the DrPH Programme requires applicants to have experience of leadership and management and experience of work in the public health field.

Note that these are minimum entry requirements, and possession of these does not guarantee a place.

English language entry requirements

Band B

It is essential that all students have a good command of the English language to benefit from their studies at the LSHTM.

As part of the application process, applicants are required to demonstrate how they meet the LSHTM's minimum English language requirements. This is particularly important for applicants requiring a Student Visa, as the UK Home Office requires every student from outside the UK and Ireland to show evidence of a minimum level of English language ability (called CEFR1 B2 level), in order for a Student Visa to be issued for entry to the UK.

Additionally, the LSHTM asks applicants to have minimum English language proficiency levels that are necessary for our academic programmes. These levels are higher than the CEFR B2 minimum level.

The academic English language requirements for each of the LSHTM's programmes are categorised into one of three profiles A, B or C. For information on these three profiles, please refer to the LSHTM English

English language entry requirements

Language Requirement Policy:

https://www.lshtm.ac.uk/sites/default/files/english language requirements policy.pdf

Financial requirements

Applicants are required to have sufficient funds to cover programme tuition fees, living expenses and any travel and project costs for the duration of their studies. Invoices for tuition fees are raised annually and payment must be paid at the start of each year of the Programme, in October. The Programme is unable to provide financial assistance to any students whose funds prove to be inadequate at any stage during the programme. Students offered admission will be required to sign a financial declaration form confirming that they understand this situation and will have sufficient financial support for the duration of their studies. Evidence of available funds may be required.

Students with disabilities

The School welcomes applications from people with disabilities. These may include sensory impairment (visual/hearing), mobility or dexterity impairment, chronic medical conditions (e.g. diabetes, HIV, epilepsy, asthma) or chronic pain/fatigue, mental health difficulties, specific learning difficulties (e.g. dyslexia or dyspraxia), Asperger's Syndrome and other autism spectrum disorders, or other conditions with long-term and adverse effect on studying. The School aims to offer as much appropriate assistance as possible to accommodate individual needs and will take all reasonable steps to ensure that both the application procedure and the programme itself are organised and delivered to offer all students the opportunity to participate fully. Applicants are encouraged to disclose any specific disability at the time of application, and to provide information on what can be done to make the application and selection process as accessible as possible. This will help the School understand individual needs and help ensure that obstacles are minimised throughout the application and admission process. Once registered, the School will endeavour to make reasonable adjustments and, within resource constraints, provide support to students with disabilities. The Student Advisory Service can answer queries and provide confidential advice at any stage in the PhD programme. The School will comply with the commitments set out above, in addition to any local legal obligations which affect how they must treat students with disabilities.
