

212

Participants Recruited in August

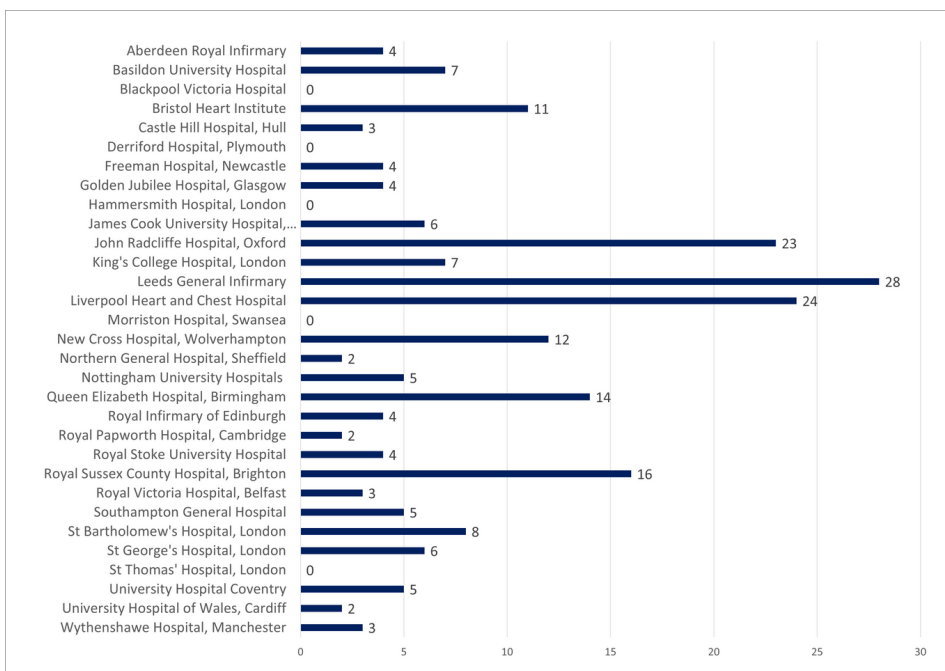

TRIAL PROGRESS

We have now reached the **5000 participant recruitment mark** which means we have recruited **65% of our sample!** In August we recruited 212 participants, making it the third consecutive month to have over 200 participants recruited - what a phenomenal achievement! A big thank you to all our sites for your continued support on the trial.

Heart Valve Disease Awareness Week

This week is Heart Valve Disease Awareness Week (11th – 17th September 2023). This reminds us of the importance of studies like BHF PROTECT-TAVI so that we can better understand how to improve treatment outcomes for people with aortic stenosis.

AUGUST RECRUITMENT - 212 PARTICIPANTS

Number of participants recruited in August 2023 at each site

AUGUST MILESTONES

A great month of milestones for the following sites:

- Aberdeen Royal Infirmary (**25th participant**)
- Bristol Heart Institute (**75th participant**)
- Queen Elizabeth Hospital Birmingham (**75th participant**)
- University Hospital Coventry (**25th participant**)
