

PROGRAMME SPECIFICATION

1. Overview

Programme Title	Public Health
Academic Year	2026-27
Cohort Entry Points	Annually in September
Programme Directors	Matt Egan, Ford Hickson, Dalya Marks, Wendy Macdowall, Sandra Mounier-Jack
Awarding Body	London School of Hygiene & Tropical Medicine
Teaching Institution	London School of Hygiene & Tropical Medicine
Faculty	Public Health and Policy
Length of Programme	Full-time Taught Masters programmes: 12 months Part-time Taught Masters programmes: 24 months
Mode of Delivery	Intensive
Maximum period of registration	Full-time: 3 years Part-time: 5 years
Language of Study	English
Entry Requirements	Please refer to the programme's entry requirements here .
Award Titles	Master of Science in Public Health Exit awards: Postgraduate Diploma in Public Health (120 credits) Postgraduate Certificate in Public Health (60 credits)
Total Credits	CATS: 180 ECTS: 90
Accreditation by Professional Statutory and Regulatory Body	N/A

Relevant PGT QAA Benchmark Statement and/or other external/internal reference points	N/A
Framework for Higher Education Qualifications Level (FHEQ)	Level 7
Re-sit Policy	https://www.lshtm.ac.uk/sites/default/files/academic-manual-chapter-08a.pdf
Extenuating Circumstances Policy	https://www.lshtm.ac.uk/sites/default/files/academic-manual-chapter-07.pdf
Date of Introduction of Programme	September 2004 The last periodic review of the programme occurred in 2023-24.

2. Programme Description, Aims & Learning Outcomes

Programme Description
This programme covers the whole breadth of public health, encompassing high-, middle - and low-income countries. On successful completion of the programme, students will receive a Master's degree in Public Health. This programme provides the knowledge and skills necessary to improve the health of populations across high-, middle- and low-income settings. The emphasis is on the use, development and critical evaluation of conceptual models; evidence and methods of analysis; and on practical, effective interventions.
Educational aims of the programme
The aim of the programme – consistent with the LSHTM's mission to improve health and health equity worldwide – is to provide students with the knowledge and skills necessary to improve the health of populations, communities and particular groups within them. The focus is mainly on high- and middle-income countries. The emphasis is on the use, development and critical evaluation of conceptual models, evidence and methods of analysis, and on effective interventions and policies at local, national and international levels.

Programme Learning Outcomes

By the end of the programme, students will be expected to achieve the following learning outcomes – drawing on material taught across different elements and assessed in a variety of ways.

Core:

- i) Demonstrate an understanding of the concepts, principles and practices of public health.
- ii) Demonstrate ability to apply knowledge of the core disciplines of public health (epidemiology, statistics, and social research) to real-world health problems.
- iii) Develop competence in critically evaluating and communicating research evidence.
- iv) Demonstrate an understanding of the relationship between research evidence and policy/practice.
- v) Develop skills to produce (design, plan, conduct) a substantive piece of original work that contributes to public health.

Teaching and Learning Strategy

The programme is taught, through a variety of teaching methods including: lectures, small group seminars, practical, and groupwork with peers. All elements of the programme have specific learning objectives, with content designed to help students achieve these outcomes. Students are expected to learn through both directed and self-directed study.

Assessment Strategy

Students are assessed through (1) individual module assessments (which may be an essay or other written assignment, short written tests, a groupwork report or presentation, or other method) and (2) an independent project report.

These tasks are designed to assess, via the most appropriate method, whether learning objectives have been met.

Programme Structure and features, modules, credit assignment and award requirements:

Full-time Masters	Term 1	Term 2	Term 3	Credits
Compulsory Modules	4			40
Recommended Modules	2	4	1	95
Projects			1	45
Total Credits	60	60	60	180

Module information is correct at the time of publication, but minor amendments may be made subject to approval as detailed in [Chapter 3 of the LSHTM Academic Manual](#). Optional (i.e. recommended non-compulsory) modules listed are indicative and may change from year to year.

<https://www.lshtm.ac.uk/study/courses/changes-courses>

Term	Slot	Module Code	Module Title	Module Type	Credits (CATS)
1	AB1	1103	Introduction to Health Economics	Recommended	10
1	AB1	1104	Principles of Social Research	Compulsory	10
1	AB1	1107	Health Services	Recommended	10
1	AB1	1109	Foundations for Health Promotion	Recommended	10
1	AB1	1117	Health Policy, Process & Power	Recommended	10
1	AB1	1121	Basic Statistics for Public Health & Policy	Compulsory	10
1	AB1	1123	Issues in Public Health	Compulsory	10
1	AB1	1125	Environment, Health and Sustainable Development	Recommended	10
1	AB1	2001	Basic Epidemiology	Compulsory	10
2	C1	1400	Health Care Evaluation	Recommended	15
2	C1	1501	Economic Evaluation	Recommended	15
2	C1	1701	Reviewing the Literature	Recommended	15
2	C1	2400	Study Design: Writing a Study Proposal	Recommended	15
2	C1	2423	Research Design & Analysis	Recommended	15
2	C2	1402	Conflict & Health	Recommended	15
2	C2	1457	Alcohol, Tobacco and other Drugs	Recommended	15
2	C2	1700	Qualitative Methodologies	Recommended	15
2	C2	1808	Health Systems	Recommended	15
2	C2	2402	Statistical Methods in Epidemiology	Recommended	15
2	D1	1127	Evaluation of Public Health Interventions	Recommended	15
2	D1	1403	Organisational Management	Recommended	15
2	D1	1454	Applied Communicable Disease Control	Recommended	15
2	D1	1504	Economic Analysis for Health Policy	Recommended	15

Term	Slot	Module Code	Module Title	Module Type	Credits (CATS)
2	D1	1802	Medical Anthropology and Public Health	Recommended	15
2	D1	2407	Epidemiology of Non-Communicable Diseases	Recommended	15
2	D1	2472	Social Epidemiology	Recommended	15
2	D1	2611	AI in Health: Principles and Practice	Recommended	15
2	D2	1301	Environmental Epidemiology	Recommended	15
2	D2	1503	Globalisation & Health	Recommended	15
2	D2	1606	Health Decision Science	Recommended	15
2	D2	1807	Health Promotion Approaches and Methods	Recommended	15
2	D2	1804	Sexual Health	Recommended	15
2	D2	2342	Design and evaluation of mental health programmes	Recommended	15
2	D2	2437	Epidemiology & Control of Communicable Diseases	Recommended	15
2	D2	2442	Nutrition Related Chronic Diseases	Recommended	15
2	D2	3189	Ethics, Public Health & Human Rights	Recommended	15
3	E	1608	Principles and Practice of Public Health	Recommended	15
3	E	2412	Advanced Methods in Statistical Epidemiology (pre-requisite +)	Recommended	15
3	E	3198	Applying Public Health Principles (pre-requisite ^)	Recommended	15
3	E	1803	Sociological Approaches to Health	Recommended	15
3	E	3174	HIV	Recommended	15
3	E	1806	Integrating Module: Health Promotion (pre-requisite #)	Recommended	15

Pre-requisites in Table above:

2412 +: must have taken Statistical Methods in Epidemiology (2402)

3198 ^: must have an understanding of social science and health economics

1806 #: must have taken Foundations of Health Promotion (1109) and Health Promotion Approaches and Methods (1807)

Contact Time

Student contact time refers to the tutor-mediated time allocated to teaching, provision of guidance and feedback to students. This time includes activities that take place in face-to-face contexts such as on-campus lectures, seminars, demonstrations, tutorials, supervised laboratory workshops, practical classes, project supervision and external fieldwork or visits, as well as where tutors are available for one-to-one discussions and interaction by email. Module contact time will be defined in the individual module specifications and provided to students at the start of their programme.

This definition is based on the one provided by the [Quality Assurance Agency for Higher Education \(QAA\) Explaining contact hours \(2011\)](#). Student contact time, together with time allocated for independent study and assessment, determines the total student study hours for a module or programme. Although there are separate hours allocated for each of these activities, they should always be clearly linked together to support effective learning.

The London School of Hygiene and Tropical Medicine (LSHTM) defines high quality contact time as structured, focused, purposeful and interactive.
