

LONDON  
SCHOOL of  
HYGIENE  
& TROPICAL  
MEDICINE

# Open Day

Wednesday 7 February 2018

Improving Health Worldwide

We are delighted to welcome you to the London School of Hygiene & Tropical Medicine open day.

We hope that by visiting the School, talking to our staff and students and participating in our interactive sessions, you will be inspired to become a member of our thriving community and join us in our mission of improving health worldwide.

## Have questions? Need advice?

Our **Student Ambassadors** are here to help you! You can also carry on the conversation by email at [virtual.lshtm.ac.uk/student-ambassadors](mailto:virtual.lshtm.ac.uk/student-ambassadors)

## USEFUL INFORMATION

Connect to **WiFi** by selecting *lshtm-conf* and entering the password *edwardjenner*. You will then need to enter your email address in a web browser.

You can leave your coats or small items of luggage in our lower ground floor **cloakroom** throughout your visit.

Take a break! **Refreshments** can be purchased in the Refectory and enjoyed in the Common Room & Pumphandle Bar.

**Photographs and/or filming** will be taken for use by the School for publicity purposes. If you do not wish to be photographed, please make yourself known to the photographer.

## Introducing the School

This session will give you an overview of life and study at the London School of Hygiene & Tropical Medicine. Representatives from our three Faculties will provide a snapshot of our research covering all aspects of public & global health, infectious & tropical diseases and epidemiology.

## Careers in Global Health

From ministries of health to academia; from charities to industry; from the lab bench to the field: our graduates go on to work in variety of roles worldwide. This talk with our Careers Service will give you insight into where a degree from the School might take you next.

## “There is no magic food tree! Health and sustainable diets now and in the future”

Poor diets are a major cause of ill health around the world. The global food system is struggling to deliver healthy diets and will be under increasing pressure from environmental change in future years. What can we do now to make our diets more sustainable, and what do we need to do to ensure healthy and sustainable diets in the future? Join Professor Alan Dangour for this sample lecture, and get a feel for teaching at the School.

## Lab Visits

Join our interactive lab visits and meet our researchers, insects and parasites! If you are interested in studying entomology or parasitology, you won't want to miss these sessions run by former students. Places are limited so reserve your place at the registration desk.

All talks will be recorded so don't worry if you miss any, we'll send you the links afterwards

 Look out for an exhibition of fascinating objects from the School's archives, on display in the Manson Foyer

Information stands are open 2 - 5pm. You will be able to meet programme directors, staff and students. Check the back of this brochure for MSc programme director availability.

## CURTIS ROOM (LG9)

MSc Demography & Health  
MSc Epidemiology  
MSc Global Mental Health  
MSc Medical Statistics  
MSc Nutrition for Global Health  
MSc Reproductive & Sexual Health Research

## BRADFORD HILL ROOM (LG8)

MSc Health Policy, Planning & Financing  
MSc Public Health

## ROSE ROOM (LG7)

MSc Control of Infectious Diseases  
MSc Immunology of Infectious Diseases  
MSc Medical Microbiology  
MSc One Health  
MSc Public Health for Development  
MSc Tropical Health for Eye Care  
MSc Tropical Medicine & International Health  
MSc Veterinary Epidemiology

## LAB VISITS

MSc Medical Entomology for Disease Control  
MSc Medical Parasitology

## SOUTH COURTYARD

### Distance Learning Programmes

MSc/ PGDip/ PGCert in:

Clinical Trials  
Demography & Health  
Epidemiology  
Global Health Policy  
Infectious Diseases  
Public Health

### Research Degrees

MPhil/PhD  
DrPH

### Short Courses

### Student Services

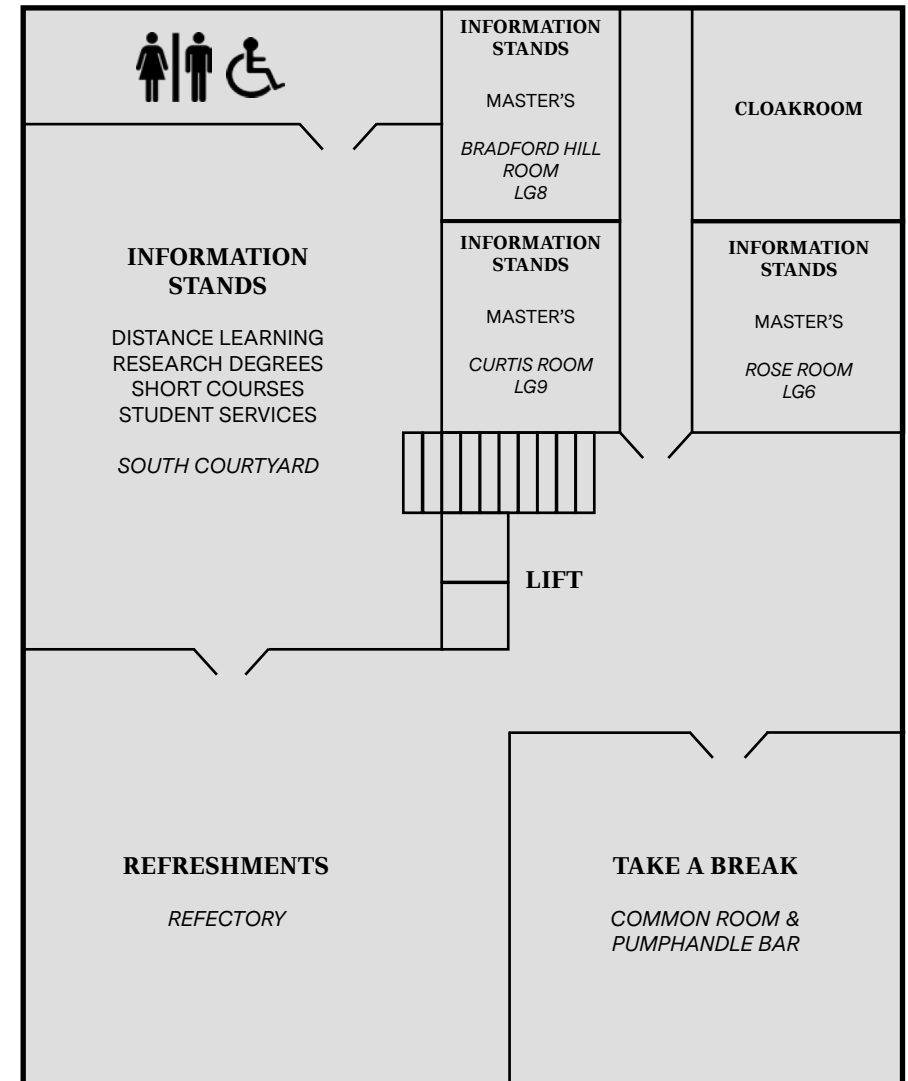

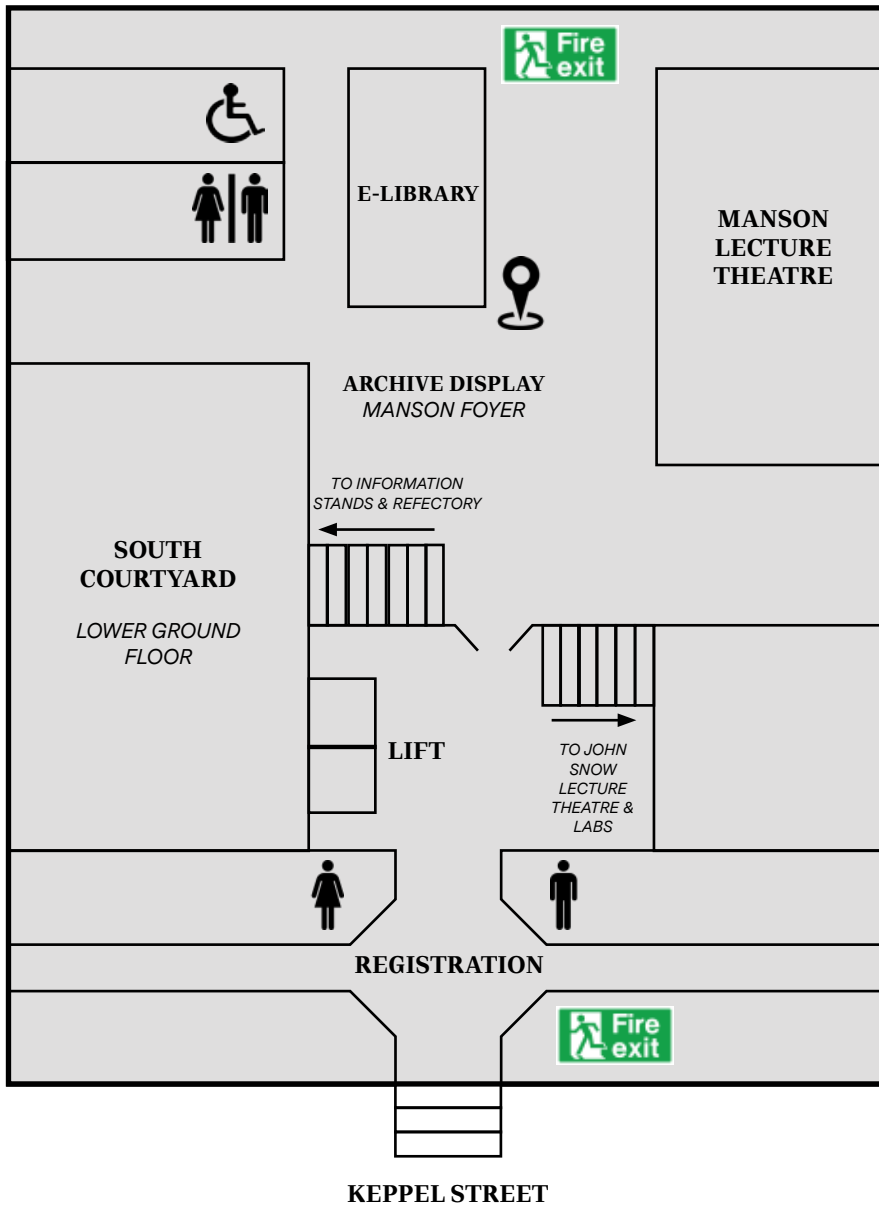

Admissions & Funding  
Careers  
Library  
Student Advice & Counselling
